

Environmental Policy

This policy applies to all companies that operate under Verevo Limited which includes CCN Communications Limited and Nexus Fibre Solutions Limited.

CCN Communications are committed to providing working practices that are conducted in such a manner that minimises any adverse impacts to the environment.

The Directors consider effective environmental management to be an integral component part of business performance and will take all reasonably practical measures to ensure continual improvement by setting appropriate objectives and targets.

The Directors accept that they have overall responsibility for aspects and impacts relating to the environmental and the implementation of this policy, and they will ensure that appropriate resources are provided.

To implement this policy a health, safety and sustainability management system has been developed. All employees and contractors are expected to support and implement the health, safety and sustainability management system. Adherence to this management system will ensure that CCN Communications:

- Complies with relevant legislation.
- Provides, so far as is reasonably practicable, adequate control of the environmental aspects and impacts arising from its work.
- Takes all reasonable steps to establish, implement and maintain processes to minimise environmental incidents.

This policy will be communicated to all employees and contractors working for CCN Communications, displayed at all premises, on the intranet and made available to third parties.

Senior management will regularly review this policy to ensure that the health, safety and sustainability management system is effective, consistently implemented and continually improved.

Two handwritten signatures in black ink. The signature on the left is more stylized and includes a long horizontal line extending to the left. The signature on the right is more compact and appears to be "Ashley Adams".
